

## Safer Internet Day

## Role-play

### Student A

You've noticed that one of your friends is sometimes taking risks online and you're worried about them. You decide to talk to another friend about it. Ask about these things:

- Sharing photos
- Keeping passwords safe
- Interacting with other people
- Keeping things private
- Personal information

Use some of the language below:

*Do you think it's a good idea to... (share photos online)?*

*How important is it to... (keep your password safe)?*

*Which personal information is it OK to share?*

*Why should we... (be careful)?*
